

Downtown Core Master Plan Workshop

Saturday, March 14, 2026, at 10:00 a.m. - 2:00 p.m.

Community Room, 43 Bombardier Road, Milton, VT 05468 (In Person Only)

The Planning & Zoning Department is hosting a planning workshop in partnership with Framework and Chittenden Regional Planning Commission (CCRPC) as a final engagement piece for the RAISE Grant. The discussion will center around the Downtown Business District, focusing on the Town-owned properties adjacent to the Hourglass Project space and new town park. This workshop will not be making any changes to regulations; this is a conversation among boards and commissions that are most directly involved with land use planning. These workshops are most successful when attended in person so there will not be a virtual attendance option. If there are public comments or concerns, please contact Planning & Zoning staff at 802-893-6655, option 4, or attend upcoming meeting(s) for the boards or commissions listed below.

This Workshop may include a quorum of the following boards and commissions:

Selectboard, Planning Commission, Development Review Board, Economic Development Commission, Conservation Commission & Recreation Commission. No business of any of the boards or commissions will be discussed. The workshop is a conference that is exempt from the definition of a "Meeting" as it is defined in the Open Meeting Law per 1 V.S.A. § 310(5)(C).

This agenda has been posted to the Town website, two designated places within the Town of Milton (Kinney Drugs and Raj Liquor & Beverage), filed with the Town Clerk, and emailed to local media outlets.

Signed: Amanda Pitts, Zoning Administrator
